Most people compare themselves from time to time with others. For example, they may compare the way they feel, their opinions, their abilities, and/or their situation with those of other people. There is nothing particularly “good” or “bad” about this type of comparison, and some people do it more than others. We would like to find out how often you compare yourself with other people. To do that we would like you to indicate how much you agree with each statement below, by using the scale provided.

I often compare how my loved ones (boy or girlfriend, family members, etc.) are doing with how others are doing.

I have often succeeded on a test or task even though I was afraid that I would not do well before I undertook the task.

1	2	3	4	5
(Not At All True)				(Very True)

I can give the impression that I'm more competent than I really am.

1	2	3	4	5
(Not At All True)				(Very True)

I avoid evaluations if possible and have a dread of others evaluating me.

1	2	3	4	5
(Not At All True)				(Very True)

When people praise me for something I've accomplished, I'm afraid I won't be able to live up to their expectations of me in the future.

1	2	3	4	5
(Not At All True)				(Very True)

I sometimes think I obtained my present position or gained my present success because I happened to be in the right place at the right time or knew the right people.

1	2	3	4	5
(Not At All True)				(Very True)

I'm afraid people important to me may find out that I'm not as capable as they think I am.

1	2	3	4	5
(Not At All True)				(Very True)

I tend to remember the incidents in which I have not done my best more than those times I have done my best.

1	2	3	4	5
(Not At All True)				(Very True)

I rarely do a project or task as well as I'd like to do it.

Sometimes I feel or believe that my success in my life or in my job has been the result of some kind of error.

1	2	3	4	5
(Not At All True)				(Very True)

I'm often afraid that I may fail at a new assignment or undertaking even though I generally do well at what I attempt.

1	2	3	4	5
(Not At All True)				(Very True)

When I've succeeded at something and received recognition for my accomplishments, I have doubts that I can keep repeating that success.

If I receive a great deal of praise and recognition for something I've accomplished, I tend to discount the importance of what I have done.

I often compare my ability to those around me and think they may be more intelligent than I am.

I often worry about not succeeding with a project or on an examination, even though others around me have considerable confidence that I will do well.

If I'm going to receive a promotion or gain recognition of some kind, I hesitate to tell others until it is an accomplished fact.

I feel bad and discouraged if I'm not "the best" or at least "very special" in situations that involve achievement.
